She is still ongoing and calling for immediate violence.

" Trust me, I will not run out of ways to make this hurt..... Have we learned nothing? These things fester when there are no consequences."

These are ongoing and continued threats that threaten the security and safety of members at the Ambassador Bridge protest.

This should not be overlooked in the least.

Hello

My name is [REDACTED]
[REDACTED]

I am reporting a violent call to action related to the Ambassador bridge shutdown.
" Slash the tires, empty gas tanks" is part of a tweet, from a "@Harvard prof, @CNN Analyst & CEO of Grip Mobility. Nat'l security expert, former Obama @DHSgov."
<https://twitter.com/juliettekayyem/status/1491757167308902405>

This is not an anonymous account.

This is a foreign actor, calling for violent action, from a verified account with a large following.

This is an immediate security threat, as a call to action to 198.7K followers from a Harvard Professor, should not be overlooked and be immediately investigated.

I will be following up with continued ATIP requests into this matter to ensure it has been investigated and the security threat has been dealt with appropriately.

Thank you.
